Consumer Free ($0) includes Sonnet 5.5, Haiku 5.5, and up to 5 Projects, while **Pro ($20/mo or $17/mo annual / $200 upfront)** adds 5× usage, `Opus 5.5`, `Fable 5.2` (credits), and `Claude Code` across a **1M-token context window**. No public individual student coupon exists — university discounts happen only via campus-wide `.edu` contracts (claude.com/solutions/education).

1. Ethical Study Rules That Protect Academic Integrity

- **Enable Learning Mode First:** Configure Claude to ask guiding questions and critique your reasoning rather than outputting finished submissions.
- **Editor, Not Ghostwriter:** Paste your own draft and ask for thesis weakness, counterarguments, and structural gaps — never submit generated prose as original work.
- **Paywalled Database Reality:** Claude does **not** log into JSTOR, ProQuest, or university library subscriptions; download permitted PDFs first or cite library databases directly.

2. Organizing Semesters With Free Projects (1M Context)

- **1 Project Per Class:** Even on **Free ($0)**, you can maintain up to **5 Projects** — upload your syllabus, grading rubric, and lecture notes.
- **1M-Context Exam Prep:** Load full textbook chapters or study packets into **Sonnet 5.5** (`1M` context) to generate tiered practice quizzes and flashcard sets.
- **Claude Code for STEM / CS:** Pro and campus Education plans include Claude Code for debugging labs while explaining step-by-step logic.
