Claude compresses legal research, redlining, and practice-area prep inside a **1M-token context window** (Fable 5.2, Opus 5.5, Sonnet 5.5, Haiku 5.5) while keeping judgment and citation verification strictly with licensed counsel. For privilege & zero default training, deploy **Team ($20 annual / $25 monthly)** or **Enterprise ($20/seat + API)**.

1. Core Research, Redlining & Practice-Area Workflows

- **Case & Opinion Synthesis:** Extract holding, procedural posture, key facts, and distinguishing factors across multi-opinion clusters.
- **4-Point Contract Review Prompt:** Audit party obligations & deadlines, deviations from market terms, missing jurisdiction clauses, and undefined defined terms.
- **Practice-Area Applications:** Litigation (deposition summaries, chronologies, interrogatory drafts), Corporate (M&A diligence checklists, board resolutions), and Immigration (personal statement drafts, visa checklists).
- **Client Advisories & Value Billing:** Turn complex rulings into executive memos under fixed-fee or value-billing models.

2. Mandatory Firm Guardrails (ABA / State Bar Ready)

- **Zero Blind Citations:** Verify every case holding, statutory cite, and procedural rule independently in Westlaw or Lexis.
- **Privilege Governance:** Never enter privileged client facts on consumer Free; require Team or Enterprise (custom retention, SCIM, audit logs).
